

## National Alliance for Worker and Employer Rights

### Pledge to the People

Of (fill in the State and District)

I, the undersigned candidate for or elected member of the United States Congress do hereby Pledge and affirm that,

I believe and will advocate for freedom in the workplace through the guaranteed and mandated use of secret ballots on the question of union representation, and

I will resist with all my power the imposition of labor laws that impose union representation on any workers that does not require an affirmative vote of the workers themselves, and

I will not accept any political or other contributions from a union organization unless that union organization has implemented a program to allow dissenting employees the right to refrain from using their money for political purposes, and

I will oppose the inclusion of federally mandated wages scales exclusively for guest workers under any revision of the U.S. Immigration Laws.
